Sleek Form and Integrated Heat Sink Deliver Optimized Thermal Management

The FD Series Deluxe floodlight offers 4,700-13,500 lumens in 40W, 78W, 100W and 135W models. The FD Series LED floodlight leverages the latest SSL technology to reduce energy consumption by as much as 70 percent. A range of options include wide beam or narrow spot, photo controls, visors, wire guards, high voltage models and surge protection. Lighting specifiers for new construction or renovation projects have advantages in meeting demanding requirements. With two types of mounts: yoke and knuckle/slipfitter available, a wide range of applications are easily fulfilled.

The FD Series Deluxe Floodlight is an excellent choice for many exterior settings in commercial and industrial projects. The FD Series is highly recommended for projects requiring 12-hour operation through the night. They effectively accent and highlight special features or showcase points of interest. Other key uses include area security and signage. The narrow beam models are perfect for lighting flag poles.
