

# RFC Series

## LED Canopy Light

Rugged Low Profile for General Overhead Lighting

### A Closer Look at RFC Series

#### Trouble-free installation

The unique quick mount plate design makes installation quick and easy for ceiling and surface mounts.

#### Versatile

Classic appearance is ideal for a variety of uses at entrance ways, parking garage ceilings and other canopy structures. In addition, its design can be adapted for use as a pendant style luminaire.

#### Photometry

Non-glare frosted polycarbonate lens protects energy efficient LED COBs and provides pleasing wide type distribution.

### EVELITE RFC Series Advantages

- Applications Include:
  - Parking Garages
  - Exterior Canopies
  - Commercial Buildings
  - Institutional Facilities
- DLC Qualified\*
- UL listed
- 5 Year Limited Warranty

### Latest SSL Technology for Highly Efficient Operation

The RFC Series is a versatile and rugged luminaire line with a pleasing low profile. It is ideal for a broad range of overhead lighting in entrance ways, parking garage ceilings and other canopy structures. Designed with a special mounting plate, installation is quick and simple.

Available in 34W and 58W models with delivered lumens of 2,900 and 5,500 respectively. The frosted polycarbonate lens enclosure produces an even wash of light with low-glare. The RFC models are available with optional dusk to dawn button photo control assuring energy consumption reductions. Its solid construction resists tampering and vandalism, retaining its appeal through many years of service with a timeless form and low maintenance.
